

GREENSHADES FEDERAL W2

Decrease Reporting Errors

With a direct integration into Microsoft Dynamics GP and SL, Greenshades offers an easy-to-use tool to create, edit and e-file Federal W-2 reports. Use editing functionality to work with W-2 information, such as third party sick pay, prior to reporting.

E-File and Forget It

Returns are created in the most current government specification and automatically uploaded to the Social Security Administration's online system. Get instant confirmation that the government has received your W-2s. Combine this module with the Greenshades Forms Package to print employee copies onto blank perforated paper, thereby eliminating the need for purchasing expensive pre-printed forms.

SSN	Last Name	First Name	MidInitial	Quarterly Total Wages
917229823	Ackeman	Pilar		816 4200
