

GREENSHADES STATE PACKAGE

E-File to Any State

Using the newest generation of software solutions from Greenshades Software, users can automate quarterly and year-end reporting with the Greenshades Center State Package. The direct integration to Microsoft Dynamics GP and SL allows users to easily create and submit electronic state unemployment and withholding reports for any of the 50 states and Puerto Rico. Reports are always created in compliance with the very latest state specifications.

State	Total Wages	Taxable Wages
IL	\$16,786.58	\$16,786.58
IN	\$965.00	\$965.00
MN	\$960.00	\$960.00
NE	\$2,010.38	\$2,010.38

Total Wages: \$20,721.96
Total Taxable: \$20,721.96

State: IL

Easy-to-Use Process

Wage information is extracted directly from the user's accounting package and formatted to each individual state's electronic layout. Once the reports have been generated, Greenshades allows the user to complete any necessary edits and then assists them in the simple process of submitting the reports to the states. Depending on the state requirements, these reports may be submitted through the Internet, using FTP, on diskette or on CD.

Rejection-Free

There is no need to worry about changes to state requirements. The Greenshades Center automatically downloads the latest government specifications and provides the ability to update the application while running, ensuring that each user is always filing with the most current set of specifications.

Save money with no transmission fees and unlimited technical support that is included in the enhancement.
