

# How to Obtain My Registration Key

A registration key is a unique set of characters used to determine what company and/or products are assigned. Without a registration key, some products such as Dynamics Patroll Inspector, Tax Filing Center, and Connector cannot proceed. Each company has a registration key and it can be located by following the below steps.

1. Navigte to Greenshades.com.
2. Select Log Into MyGreenshades in the top right corner.

3. Once logged in, you will see information such as Company Information, Active Products, and Registration Information.

**Note:** This page can also be used to add and remove company contacts, view invoices, and view statuses on open support issues.
